

Club Vision Statement

Create A Vision For Your Club

Establishing a vision articulates how your club will accomplish NYFPS' mission. More specifically, it will help your club motivate current and future members to become enthusiastic about sharing your club experience with others.

A club's vision statement should:

- Identify the club's purpose.
- Provide clarity of the club's mission to prospective members.
- Establish goals and priorities for the club.
- Guide club leaders in decisions regarding events and activities.

Conduct group reflection at your next club meeting; discussions will be inspirational and motivational for members. Let the conversations energize your members' commitment to the club's vision.

At an upcoming club meeting, use the following prompts to encourage members to share what makes the club special and to consider the reasons or people that sustain it. Also brainstorm what's needed most in your local community.

Have A Vision

Students, teachers, parents, and professionals affiliate themselves with NYFPS because of a shared passion for teaching young people problem solving skills and improving communities. Each club chooses how to do that depending on the needs of the community, the resources available, the interests of their members.

Create a vision statement for your club and identify common goals to achieve. A club's vision statement reveals how it presents itself, what impact it aims to have on the local community, and where it wants to be in the future.
